Go up a gear with NAVCA

Governance support

Good governance is vital for a healthy, effective, and high-achieving organisation.

NAVCA helps trustees and chief officers of member organisations to reflect on their own governance and embed best practice. Our support encompasses a wide range of governance issues: board roles and responsibilities, trustee skills, team working, the board's relationship with the chief officer and the rest of the organisation, and how to improve performance. We carry out trustee

away days and governance reviews, offer model governing documents, and provide information and networking for trustees.

To discuss how we might be able to support your organisation with governance, contact our Members' Support and Development Manager, Vivienne Denton, on 0114 289 3974 or vivienne.denton@navca.org.uk.

"You made the time exciting, interesting and worthwhile. There was a good feeling of exhilaration that we are finally taking control of our destiny in a way that had not happened before."

Wendy Temple, chair of Voluntary Action Stratford-on-Avon District
